

The background is a solid blue color. On the left side, there are two large, white, rounded geometric shapes: a tall, narrow one and a shorter, wider one. From the bottom of these shapes, several thin, orange lines extend downwards and outwards, creating a network-like pattern. The text is positioned on the right side of the page.

The background is a solid blue color. On the left side, there are several white abstract shapes: a large, rounded triangle pointing upwards, a smaller rounded triangle pointing downwards, and a curved orange line that starts from the bottom left and curves upwards and to the right, passing behind the white shapes.

# Magical Marketing - Rebase explained

---

+

In short, rebase is used as an marketing aid and it does not affect the value of your tokens. Don't be afraid, we are not here to steal your cookies.

Rebase is an increase or decrease in the total supply of a given token across all holding pools and all wallets. This is done in order to adjust the token price, without affecting the value of anyone's share of coins.

This can be beneficial as the chart will always look healthy regardless of dips and we can be on the top gainers parts of websites due to the illusion of a rise in price floor so is a brilliant marketing tool in itself.
